CAREER OBJECTIVE

I'm a computer science student who enjoys learning new things about technology and programming. I like solving problems, building small projects, and exploring areas like web development and networking. I'm currently improving my skills in languages like Python and Java. I'm always open to working on new ideas, joining events, and growing as a developer.

EDUCATION

Computer Science and Engineering	— Pursuing
SR University, Warangal	
Board of Intermediate Education (MPC)	— 2023
SR Junior College, Hanamkonda	
Secondary School Certificate	— 2021
Tejaswi High School, Hanamkonda	

PROJECTS

❖ Title: Gesture Based Secure Authentication System.

Tools: Python, MediaPipe, OpenCV, NumPy, JSONDatabase, SHA-256Hashing.

Summary: Developed a secure gesture-based biometric authentication system using Python, MediaPipe, and OpenCV, featuring real-time hand landmark detection, cosine similarity matching, liveness verification, and multi-user access control

❖ Title: NeuroGrid – Parkinson's Disease Analysis System

Tools: Python, Pandas, Matplotlib, HighPerformanceComputing(HPC), CSVDatasetProcessing, Client-ServerArchitecture.

Summary: Developed an HPC-based analytics platform using Python, Pandas, and Matplotlib for Parkinson's Disease data analysis. Implemented centralized data processing, statistical computation, and visualization techniques to derive healthcare insights from large-scale patient datasets.

❖ Title: Fake News Detection

Tools: Python, TensorFlow, NLTK, BERT, Word2Vec, LSTM, Bi-LSTM, AttentionMechanism, Scikit-learn

Summary: Developed an HPC-based analytics platform using Python, Pandas, and Matplotlib for Parkinson's Disease data analysis. Implemented centralized data processing, statistical computation, and visualization techniques to derive healthcare insights from large-scale patient datasets.

INTERNSHIPS

- Google AIML Virtual Internship in AICTE
- Python Full Stack Internship in AICTE
- Software Development Intern at Prodigy InfoTech opportunity
- Exploring Emerging Technology in Google Cloud

SKILLS

Programming Languages: Python, Java, SQL

Web Technologies: HTML, CSS

Tools & Platform: VS Code, Git, GitHub

Core Concepts: Data Structures, Algorithms, OOPs

Soft Skills: Communication Skills, Active Listening, Responsibility, Teamwork & Collaboration

CERTIFICATES

- Master Mentors GEO-Enabling India Scholars ESRI India
- Exploring Emerging Technology in Google Cloud.
- EDA Analysis & Visualization of Retail using Power BI.

ACHIEVEMENTS

Awarded Appreciation as Semester Topper in School of Computer Science and Engineering during the academic year 2024-25 2nd year 1st Semester (CSE).

Outstanding Academic Excellence Awarded by Head of CS&AI 2024-2025.

3rd year 1st semester ,2nd semester Topper in School of Computer Science and Engineering during the academic year 2025-2026

HOBBIES

Drawing, Painting, Cooking

LANGUAGES

English | Telugu
